

# Job description

Nurse Practitioner Employment Opportunity In-state only and preferably living in the east valley

## IMMEDIATE POSITION

Seeking Nurse Practitioners to manage a large Geriatric panel of patients in large assisted living facilities and group homes along with On-site Primary Care settings.

Take advantage of flexible hours, a competitive salary, and be with a well known mobile practice in Arizona. Start Immediately!

This exciting opportunity will require an NP who can provide a high level of service and attention to our patients.

If you are a seasoned NP and you meet the qualifications listed below, please send your updated resume for immediate consideration!

### Shift:

Monday-Friday 8-5 pm

**Location:** East Valley/Ahwatukee Area (Travel Valleywide with an assigned Medical Assistant in company provided automobile)

### Qualifications

- Licensed, Board-certified NP
- Must have current DEA and AZ License.
- Preferably one to two years experience as a mid-level practitioner and at least one year in the desired specialty field.
- New graduates with excellent GPA and background are welcome to apply, especially those who completed rotation(s) in a House Call setting. (must be willing to commit to a 24-month contract)
- Proficient on a Windows-based computer and smartphone.
- **Ability to read, write, and communicate effectively.**
- Will be required to travel between some private homes, group homes, senior care facilities.

### Essential Functions

Patient services in Group Homes or Assisted Living Facilities. These services include, but are not limited to the following:

- Collecting subjective and objective information about the patient (patient's history, symptoms, review of systems, and physical findings)
- Assessing the collected data to identify problems and set priorities
- Creating an individualized care plan that is evidence-based and cost-effective based on standards of care and professional practice guidelines
- Implementing the care plan including chronic medication management and educating patients on test results and treatment plans
- Monitoring the patient over time during follow-up encounters to evaluate the effectiveness of the plan and modify it as needed
- Medicare population with focus on Chronic Diseases
